REINSURANCE CAFE LABUAN LTD CAPTIVE INSURANCE

LARGE CORPORATE

A captive insurer is generally defined as an insurance company wholly owned and controlled by its insureds.

- 90% of Fortune 1000 companies have captives
- 7,000 captives in the world
- 50% of non-life insurance premiums written through captives

Advantages

- Reduction in overall risk costs
- Improve and tailor coverages
- Participation in underwriting results
- Access to wholesale reinsurance markets
- Earn interest income
- Maintain stability of pricing
- Secure broader coverage
- Participate in claims management with greater control
- Improve cash flow
- Inculcate risk improvement to improve operational efficiency

Types of Captive

- Form & own by ABC Corp. to underwrite for its subsidiaries & qualified associate companies
- Holding owned captive collects premiums, pay losses, derives investment income from the operating companies supporting the captives Beneficial ownership belongs to shareholder only

How to form a Captive Company

- Appoint expert to conduct free Preliminary Captive Assessment (PCA)
- Provide insurance underwriting information
- If study is positive, a high quality captive design and business plan will be drawn up
- Submission of captive application with supporting documents
